**FACILITATOR** Eva Christiansen, Ph.D. is a licensed psychologist at the Des Moines Pastoral Counseling Center and has worked with the Rorschach for forty years. She trained with the Exner Comprehensive System and contributed to the re-norming effort for that data. She has used the R-PAS system since it has been in existence and established levels of administration and coding proficiency to be able to collect normative data for those up-coming norms. She is excited to use the Rorschach as part of her assessments because it has become an instrument of tremendous strength.
